TWO MOBILE STAGES. ONE COMPLETE SERVICE.

[CLICK HERE](#)

[OR SCAN](#)

Whether you are organising a community celebration, school performance, live music event or outdoor festival, we can provide a stage and production package built around your requirements. Both stages are delivered and professionally installed by our trained team. Setup and dismantling are included in the stage price, with delivery and collection charged separately according to location.

COMPACT ROADSHOW STAGE

5 m wide × 4 m deep

A compact, fast-deploy covered stage for community events, performances, presentations and smaller live productions.

Ideal for:

- Town and village events
- Schools and charities
- Presentations and ceremonies
- Solo performers and smaller bands
- Community entertainment
- Locations with limited space

Stage hire from £650 + VAT per day

STAGEMOBIL L FESTIVAL STAGE

7 m wide × 6 m deep

A spacious professional stage for festivals, concerts and larger productions requiring more performance space, greater visibility and comprehensive sound and lighting options.

Ideal for:

- Festivals and concerts
- Larger community events
- Multi-act productions
- Full live bands
- Civic and public events
- Audiences of up to 1,200 and beyond, subject to site and production requirements

Stage hire from £1,250 + VAT per day

BUILD YOUR PACKAGE

Both stages can be combined with:

- PA systems for different audience sizes
- Mixer and microphone packages
- Stage monitors and additional microphones
- Basic or performance lighting
- Battery, solar or generator power
- Sound engineers, lighting operators and event crew

Not sure which stage you need? Tell us about your event and we will help you choose the most suitable and cost-effective option.

COMPACT ROADSHOW STAGE

[CLICK HERE](#)

[OR SCAN](#)

FAST-DEPLOY COVERED STAGE FOR COMMUNITY EVENTS, PERFORMANCES AND PRESENTATIONS

Our Compact Roadshow Stage provides a professional covered performance area without the space, setup time or cost associated with a larger festival stage.

Its enclosed trailer design opens to form a practical 5 m × 4 m stage with a roof, rear wall and partial side walls. It is particularly well suited to town centres, schools, private sites and community venues where space or access may be limited.

KEY SPECIFICATIONS

- **Stage width:** 5 m
- **Stage depth:** 4 m
- **Floor height:** approximately 0.8 m
- Covered roof and rear wall
- Partial side walls for weather protection
- Two access steps with handrails
- Rear working lights
- 32 A electrical input
- Four double 13 A sockets
- Smart front valance
- Installation and dismantling included
- Stage-only setup normally completed in approximately 30 minutes

SUITABLE FOR

- Community events
- Presentations and ceremonies
- School performances
- Charity events
- Solo performers
- DJs and entertainment
- Smaller live bands
- Town-centre events

STAGE HIRE

From £650 + VAT

Professional setup and dismantling are included.

Delivery and collection are calculated separately according to location, access, timings and the journeys required.

COMPLETE YOUR PACKAGE

Build your event with a choice of four PA systems, shared mixer and microphone packages, stage lighting, battery power and experienced technical crew.

Choose the PA system for your required audience coverage, then add the mixer and microphones appropriate for your performers.

Scan the QR code for full specifications, availability and current pricing.

ROADSHOW STAGE PA SYSTEMS

[CLICK HERE](#)

OR SCAN

Choose the PA system to suit your audience, event and performers. Mixer and microphone packages are selected separately, giving you the flexibility to use our complete production service or connect equipment supplied by your performers.

R-S1 – ESSENTIAL

Estimated audience: Up to 100

A simple and cost-effective system for speech, background music, presentations and straightforward performances.

Ideal for:

Announcements and ceremonies, presenters and guest speakers, background music, solo performers & smaller community events

R-S2 – ENHANCED

Estimated audience: Up to 150–200

Increased coverage and flexibility for events requiring clearer sound across a wider audience area.

Ideal for:

Community entertainment, vocal performances, schools and charity events, music playback & events requiring additional coverage

R-S3 – ZENITH LIVE

Estimated audience: Up to 200–250

A more powerful system for live entertainment, DJs and bands requiring greater output and stronger low-frequency performance.

Ideal for:

Live bands, DJs, dance performances, busier outdoor events & events requiring stage monitoring or delay speakers

R-S4 – ZENITH FESTIVAL

Estimated audience: Up to 400

Our highest-output Roadshow Stage sound system for larger audiences, multi-act events and festival-style productions. Comes with 4 stage monitors. Ideal for:

Larger community events, multi-act programmes, full live bands, outdoor music events & events requiring wider audience coverage

NEED A MIXER AND MICROPHONES?

Add one of the shared packages shown on Page 9—from simple music playback and two vocal microphones to a complete live-band setup.

Additional stage monitors, microphones and delay speakers can be supplied where required.

Scan the QR code for full specifications, estimated audience capacities and current pricing.

ROADSHOW STAGE LIGHTING & POWER

[CLICK HERE](#)

OR SCAN

Transform the Compact Roadshow Stage with lighting designed for anything from daytime presentations to evening performances.

Our lighting packages are installed as part of the stage production and can be combined with sound, microphones, power and technical crew.

R-L1 – BASIC WASH

Clean, even stage lighting that keeps presenters and performers clearly visible.

Ideal for:

- Presentations and ceremonies
- Daytime entertainment
- Solo performers
- Schools and community events
- Events continuing into the evening
- The package provides practical illumination across the performance area without adding unnecessary effects or complexity.

R-L2 – PERFORMANCE LIGHTING

A more dynamic lighting package for live music, DJs, dance and evening entertainment.

It combines stage wash lighting with additional colour and effects to create a more exciting appearance for both performers and the audience.

Ideal for:

- Live bands
- DJs
- Dance performances
- Multi-act events
- Evening entertainment
- Festival-style productions

SOLAR AND BATTERY POWER

Our extensive battery system can provide event power without the noise and local emissions of a continuously running generator. Solar generation can be added where appropriate to support the battery system during longer events.

Suitable uses include:

- Stage lighting
- Sound systems
- Mixing equipment
- Microphones and technical equipment
- Locations without a suitable nearby electrical supply

The ultimate power solution is planned around the selected equipment, event duration, available venue power and expected weather conditions.

A generator or venue supply may be used as backup where necessary.

Scan the QR code for package details, power guidance and current pricing.

WEEKDAY AND COMMUNITY DISCOUNTS AVAILABLE

STAGEMOBIL L FESTIVAL STAGE

[CLICK HERE](#)

[OR SCAN](#)

A SPACIOUS PROFESSIONAL STAGE FOR FESTIVALS, CONCERTS AND LARGER PRODUCTIONS

Available for the 2027 season, our Stagemobil L Festival Stage offers substantially more performance space than the Compact Roadshow Stage while retaining the speed and efficiency of a mobile trailer stage.

Its 7 m × 6 m performance area provides space for larger bands, multi-act events and productions requiring substantial sound and lighting equipment.

KEY SPECIFICATIONS

- **Stage width:** 7 m
- **Stage depth:** 6 m
- **Floor height:** approximately 1–1.2 m
- Covered roof and side protection
- Higher stage floor for improved audience visibility
- Integrated PA wings
- Maximum PA-wing load of 350 kg per side
- Suitable for suspended lighting
- Professional installation and dismantling included
- Stage structure can normally be deployed in under one hour

SUITABLE FOR

- Festivals and concerts
- Larger community events
- Live bands and multi-act programmes
- Town and council events
- School and charity productions
- Outdoor entertainment
- Audiences of up to approximately 1,500, subject to the selected sound system, site layout and environmental conditions.

STAGE HIRE

From £1,250 + VAT

Professional setup and dismantling are included.

Delivery and collection are calculated separately according to location, access, timings and the journeys required.

COMPLETE EVENT PRODUCTION

Build your production with a choice of PA systems, shared mixer and microphone packages, stage lighting, hybrid event power and experienced crew.

Scan the QR code for full specifications, availability and current pricing.

WEEKDAY AND COMMUNITY DISCOUNTS AVAILABLE

FESTIVAL STAGE PA SYSTEMS

[CLICK HERE](#)

OR SCAN

Choose the PA system according to your audience, site and required coverage. Mixer, microphone and monitor packages can then be added according to your performers. Audience capacities are estimates and remain subject to the site, event type, coverage area, noise restrictions and required sound level.

F-S1 – ZENITH FESTIVAL SOUND **Estimated audience: Up to 400**

A powerful conventional PA system for smaller outdoor audiences and events that do not require a line array. The amplifier system can also support up to four stage monitors or delay speakers, allowing the package to be adapted to the event. Comes with 4 stage monitors.

Suitable for:

- Community events
- Live music
- DJs and entertainment
- Presentations and ceremonies
- Smaller festival sites

F-S2 – MEDIUM LINE ARRAY **Estimated audience: Up to 400–800**

A compact line-array system providing more consistent coverage across a larger audience area. The system uses four line-array modules per side with two high-output subwoofers, giving it a clear step up in coverage and performance from the conventional system.

Suitable for:

- Larger community events
- Live bands
- Concerts
- Multi-act productions

F-S3 – LARGE LINE ARRAY **Estimated audience: Up to 800–1,500**

An expanded line-array package for events requiring greater output, throw and coverage. The final system configuration is planned around the expected audience, site dimensions, event type and applicable noise restrictions.

Suitable for:

- Larger festivals
- Concert-style events
- Wide or deep audience areas
- Productions requiring increased system headroom

NEED A MIXER AND MICROPHONES?

Choose one of the shared packages on Page 9.

Additional delays and stage monitors can be added where required.

Scan the QR code for full specifications, estimated audience capacities and current pricing.
Outdoor audiences sizes are approximate and subject to site conditions

WEEKDAY AND COMMUNITY DISCOUNTS AVAILABLE

FESTIVAL STAGE LIGHTING & EVENT POWER

[CLICK HERE](#)

OR SCAN

Weather-resistant lighting and flexible power options for the Stagemobil L Festival Stage.

F-L1 – BASIC WASH

Bright, even illumination across the stage for presenters, daytime performances, community entertainment and events continuing into the evening.

Weather-resistant fixtures are used throughout.

F-L2 – PERFORMANCE LIGHTING

A more dynamic package for bands, festivals, dance, DJs and evening headline performances.

The main stage wash is combined with additional IP-rated battens to provide colour, depth and audience-facing effects without requiring a large moving-light rig.

F-P1 – HYBRID EVENT POWER

A flexible event-power package that can include modular battery storage, quiet inverter power, up to eight 400 W solar panels, distribution, monitoring and generator or venue-power backup.

Battery and solar power can reduce generator running time, noise and local emissions. The final configuration is selected according to the equipment, event duration and available venue supply.

POWER PLANNING

We assess the expected demand from the stage, sound, lighting and performers before recommending the final arrangement.

Scan the QR code for lighting options, power information and current pricing.

MIXERS & MICROPHONES

FLEXIBLE PACKAGES FOR EITHER STAGE

Our PA systems cover the audience. Add one of these packages when you need playback, microphones and a suitable mixing console. Stage monitors are selected separately using MON1, except where already included with the PA system.

[CLICK HERE](#)

OR SCAN

M1 – PLAYBACK & TWO VOCAL MIXER PACKAGE

For announcements, music playback, solo performers and singers using backing tracks.

Includes:

- Behringer FLOW 8 digital mixer
- Two Shure SM58 vocal microphones
- Microphone stands
- Playback and input connections
- Required signal cabling

Ideal for:

- Presenters
- Solo singers
- Duos
- Backing-track performances
- Simple community entertainment

M2 – PLAYBACK & FOUR WIRELESS VOCAL MIXER PACKAGE

For vocal groups, panels and performances requiring up to four wireless microphones.

Includes:

- Behringer FLOW 8 digital mixer
- Four Sennheiser EW-DX wireless vocal microphones
- Microphone stands
- Playback and input connections
- Required signal cabling

Ideal for:

- Vocal groups
- Multi-presenter events
- Theatre and performance groups
- Events requiring wireless microphones

M3 – LIVE BAND MIXER & MICROPHONE PACKAGE

A complete mixing and input package for live bands and multi-act productions.

Includes:

- Behringer X32 Compact or X32 Rack digital mixing console, selected according to requirements
- Two digital stage boxes—one for the drum area and one for amplifiers, keyboards and other stage inputs
- Four Sennheiser EW-DX wireless vocal microphones
- Drum microphone set
- Two Shure SM57 instrument microphones
- Four active DI boxes
- Microphone stands and input cabling

MON1 – FOUR-SPEAKER STAGE MONITOR PACKAGE

Four independently powered monitor channels to help performers hear vocals, instruments and playback clearly. Includes four 12" speakers, a four-channel amplifier and cabling. R-S4 and F-S1 already include four monitor speakers.

ADDITIONAL EQUIPMENT

Additional microphones, DI boxes and monitors can be supplied as required. Wireless mixing from the stage is standard, with an optional covered front-of-house control platform available.

Scan the QR code for full specifications, availability and current pricing.

WEEKDAY AND COMMUNITY DISCOUNTS AVAILABLE

COMPLETE EVENT PRODUCTION, PLANNED AROUND YOU

From a straightforward delivered stage to a complete festival production, our experienced team can provide the equipment, planning and crew needed to keep your event running smoothly.

[CLICK HERE](#)

[OR SCAN](#)

EXPERIENCED CREW:

Sound Engineers

Professional system setup, soundchecks and live mixing for bands, performers, presenters and playback.

Lighting Operators

Creative and responsive lighting throughout your event, from daytime performances to headline evening sets.

Stagehands & Event Crew

Practical support with changeovers, equipment, cabling and the safe running of your stage.

Event Technicians

Multi-skilled technical support for events requiring sound, lighting, power and general production assistance.

Crew is selected and quoted separately according to your event, schedule and technical requirements.

PLANNING & DELIVERY

We can support your event with:

- Site access reviews and technical planning
- Production schedules and equipment coordination
- Power planning and distribution
- Risk assessments and method statements
- Insurance documentation
- Setup, testing, event support and pack-down

ONE TEAM. ONE COMPLETE PACKAGE.

Combine your chosen stage with appropriately sized sound, microphones and mixing, performance lighting, battery or generator power, and experienced technical crew. We will help you select the right options for your audience, performers, venue and budget—without adding equipment you do not need.

PLAN YOUR PRODUCTION

Scan the QR code for complete production options, current pricing and bespoke quotations.

Not sure what you need? Send us your event details and we will build a suitable package around them.

PLANNING YOUR STAGE HIRE

STRAIGHTFORWARD BOOKING. CAREFULLY PLANNED DELIVERY.

Every event is different. We will help you choose the right stage and add-ons, confirm the practical requirements and prepare a clear quotation around your event.

1. TELL US ABOUT YOUR EVENT

To prepare your quotation, we will need:

- Event date and location
- Audience size
- Performance and event timings
- Number and type of performers
- Preferred stage and add-ons
- Vehicle access and ground conditions
- Available electrical supply
- Preferred setup and collection times

Photographs, site plans and performer requirements are always helpful.

3. BUILD YOUR PACKAGE

Add only the services your event needs:

- Sound systems for different audience sizes
- Mixing consoles and microphone packages
- Stage monitors and additional microphones
- Basic or performance lighting
- Battery, solar or generator power
- Sound engineers, lighting operators and event crew

Already have some of your own equipment or suppliers? Our flexible packages can be adapted to work alongside them.

2. CHOOSE YOUR STAGE

Select the compact 5 m Roadshow Stage or the larger 7 m Mobile Stage.

Both stages include delivery by our trained team, professional installation on site and dismantling after your event. Delivery and transport are quoted separately according to location.

4. CONFIRM YOUR BOOKING

Once you are happy with your quotation, a 25% non-refundable deposit secures the booking. The remaining balance is due 30 days before your event.

We will then work with you to confirm the final schedule, technical requirements, site access and production details.

SUPPORTING OUR COMMUNITY

Supporting community events is an important part of what we do. Eligible bookings for charities, educational organisations, government bodies and local councils can receive a 25% equipment discount.

Discounts are subject to eligibility, availability and the requirements of the event.

READY TO START PLANNING?

Get in touch to request a quotation or discuss your event with our team.

Still have questions? We'd love to chat—feel free to reach out!
